SUMMARY

I am a front-end developer with over 3 years of experience in designing and developing single-page applications SPA using the React & Nextjs frameworks.

My goal is to create innovative user experiences, provide cutting-edge solutions to meet user needs, and elevate project performance. I am constantly seeking to learn new technologies and participate in impactful projects. I aspire to play a pivotal role in crafting tools and platforms that make the digital world better and more efficient.

- Jira
- Refresh Token
- Styled Component
- SPA

- Nextjs
- Socket.IO
- Hero UI
- Magic UI
- TailwindCSS
- Trello
- Figma
- JWT
- Server Action

EXPERIENCE

Apanco   03/2024 – 07/2025
Front-End Developer   Sari, Mazandaran

- Teamed up with design and development teams to improve UX, and as a result, user satisfaction increased by more than 10%.

- Worked closely with UX/UI designers to transform functional wireframes into web applications, which directly contributed to a 15% reduction of post-launch errors in user navigation reported.
- Utilized Git and other version control systems to efficiently track project progress, facilitate collaboration, and maintain code integrity.
- Built a small-scale real-time app with Socket.IO and Express.js to explore backend event handling and WebSocket integration.
- Incorporating better page strategies on web pages using React and Next.js, which led to faster and SEO-friendly web pages, increasing performance and enabling a 20% reduction in load time.
- Utilized NextAuth.js in a Next.js project to implement secure authentication with JWT and refresh token support, enhancing session reliability and user data protection.

Sepehr Academy   01/2023 – 03/2024
Front-End Developer   Sari, Mazandaran

- As a team member aspiring to enhance workflow efficiency by 25%, I collaborated in a three-member team developing websites on the React framework.
- Engineered visually appealing and fully responsive web pages with HTML, CSS, and JavaScript, aligning with client requirements and boosting user engagement.
- Applied responsive and accessible designs to enhance compatibility across a wide range of devices and web browsers, ensuring a seamless user experience
- Designed and refined user interfaces UI on Figma, leading to a 20% increase in customer satisfaction.
- Developed a feature-rich admin panel to enhance UI interactions and streamline management processes, reducing content management time significantly.

KEY ACHIEVEMENTS

Improved Team Efficiency
Boosted team productivity by 25% in a three-person team using React framework.

Increased User Satisfaction
Enhanced user satisfaction over 15% by collaborating with design teams for improved UX.

Optimized Rendering Strategy
Leveraged Next.js features like Server-Side Rendering (SSR) and API Routes to improve page performance and SEO, reducing initial load time by over 30%.

STRENGTHS

Performance Enhancement
Optimized page load by 20%.

User Experience Focus
mproved user satisfaction by 15%.

Authentication & Security
Integrated JWT, NextAuth, and refresh tokens
to ensure secure user access

UI Styling
Built responsive UIs with TailwindCSS and
Styled Components following accessibility
standards
