SUMMARY

I am a **front-end developer** with over **2.5 years of experience** in **designing and developing single-page applications (SPA)** using the **React & Nextjs frameworks**. My goal is to **create innovative user experiences**, provide **cutting-edge solutions** to meet user needs, and elevate **project performance**. I am constantly seeking to **learn new technologies** and participate in **impactful projects**. I aspire to play a **pivotal role** in crafting **tools and platforms** that make the **digital world better** and more **efficient**.

EXPERIENCE

Front-End Developer

Apanco

📅 03/2024 - 04/2025   📍 Sari, Mazandaran

- Teamed up with **design and development teams** to improve **UX**, and as a result, **user satisfaction increased by more than 10%**.
- Worked closely with **UX/UI designers** to transform **functional wireframes** into web applications, which directly contributed to a 15% reduction of **post-launch errors** in user navigation reported.
- Utilized **Git** and other version control systems to efficiently track project progress, **facilitate collaboration**, and maintain code integrity.
- Built a small-scale **real-time app with Socket.IO and Express.js** to explore backend event handling and WebSocket integration.
- Incorporating better page strategies on web pages using **React** and **Next.js**, which led to faster and SEO-friendly web pages, increasing performance and enabling a **20% reduction in load time**.
- Utilized **NextAuth.js** in a **Next.js project** to implement secure **authentication** with **JWT** and refresh **token support**, enhancing session reliability and user data protection.

Front-End Developer

Sepehr Academy

📅 01/2023 - 03/2024   📍 Sari, Mazandaran

- As a **team member** aspiring to **enhance workflow efficiency by 25%**, I collaborated in a **three-member team** developing websites on the **React framework**.
- Engineered visually appealing and fully **responsive web pages** with **HTML, CSS, and JavaScript**, aligning with client requirements and boosting user engagement.
- Applied **responsive and accessible designs** to enhance compatibility across a wide range of devices and **web browsers**, **ensuring a seamless user experience**
- Designed and refined user i**nterfaces (UI)** on **Figma**, leading to a **20%**+ increase in customer satisfaction.
- Developed a **feature-rich admin panel** to enhance UI interactions and **streamline management processes**, reducing content management time significantly.

KEY ACHIEVEMENTS

💎 **Improved Team Efficiency**
Boosted team productivity by **25**% in a three-person team using React framework.

💎 **Increased User Satisfaction**
Enhanced user satisfaction over **15**% by collaborating with design teams for improved UX.

SKILLS

HTML	CSS	React	Nextjs
JavaScript	TypeScript	Express	
Socket.IO			

Axios	Zod	Yup	Hero UI	Formik
Shadcn/UI	Magic UI	react-hook-form		
Zustand	React Router	TailwindCSS		
React Query	NextAuth			

| Postman | Trello | Git | GitHub | Jira |
| Figma | NPM | | | |

App Routing	Refresh Token	JWT
CSS Modules	Responsive Design	
Styled Components	Server Action	SPA

PROJECTS

React Web App with Admin Panel

📅 12/2024 - 10/2024   📍 Sari, Mazandaran (Apanco)

Developed a **full-stack web application** with **React and TypeScrip**t, featuring a **fully functional admin panel** for **efficient user and content management**.

- Crafted and implemented a **highly responsive**, intuitive user interface with **React** and **TailwindCSS**, enhancing user experience and accessibility across devices.
- Built a scalable **admin dashboard** featuring robust **authentication mechanisms** and granular **role-based access control** (RBAC) to enhance security and user management efficiency.
- Engineered seamless **API integrations** that facilitated real-time data updates, enhancing the user experience by decreasing page load times to under **2 seconds** and improving overall **application responsiveness**.

Personal Web App
