

Kian Janloo

Backend Developer

+98 911 359 3282 | kianjanloo10@gmail.com | Sari, Mazandaran, Iran | github.com/KianJanloo | linkedin.com/in/kian-janloo | kian-janloo.vercel.app

Summary

Backend Developer with hands-on experience designing and scaling TypeScript/Node.js services (Express.js, NestJS) and modeling data across PostgreSQL and MongoDB. Strong track record building secure, well-tested REST/GraphQL APIs with JWT/RBAC authentication, Redis caching, and clean, modular architecture. Comfortable owning the full backend lifecycle - from schema design through CI/CD - with additional full-stack range across React and Next.js.

Experience

Hexorix | UK - Backend Developer

01/2026 - 05/2026

- Built scalable TypeScript backend services using Express.js and NestJS with modular, clean architecture, cutting feature delivery time by ~20%.
- Optimized PostgreSQL/MongoDB queries and indexing strategy with TypeORM and Mongoose, reducing average query latency by ~30%.
- Developed secure REST/GraphQL APIs featuring JWT/RBAC authentication, request validation, and Redis caching/rate limiting, supporting 50+ concurrent endpoints.
- Maintained a smoother CI/CD pipeline by integrating Jest (80%+ test coverage on core modules), Swagger, and Docker.

Sahar SMS | Tehran - Full Stack Developer (Backend-focused)

09/2025 - 12/2025

- Built secure REST APIs with Node.js/TypeScript using JWT, RBAC, custom middleware, and rate limiting for a platform serving thousands of daily SMS transactions.
- Optimized PostgreSQL schemas with TypeORM, including relations, indexes, and migrations, reducing slow-query incidents by ~25%.
- Improved backend performance with Redis caching, session storage, and background job queues, cutting average response time by ~35%.
- Delivered Next.js/React applications with SSR, SSG, and ISR where frontend integration was required.

Apanco | Sari, Mazandaran - Front End Developer

01/2024 - 06/2025

- Developed and integrated scalable RESTful APIs with Express.js and TypeScript, implementing secure authentication with JWT and NextAuth.js.
- Converted UX/UI wireframes into production-ready React, TypeScript, and Next.js applications, reducing post-launch defects by ~15%.
- Applied Git workflows and CI/CD pipelines, collaborating with backend engineers to optimize API contracts and data flow.

Sepehr Academy | Sari, Mazandaran - Front End Developer

03/2022 - 12/2023

- Built and maintained a scalable admin dashboard, integrating RESTful APIs using React Query, Axios, and Postman for reliable data synchronization.
- Collaborated in a 3-member Agile team to ship scalable, responsive applications with modular, reusable components.

Skills

Backend & Frameworks: Node.js, Express.js, NestJS, REST, GraphQL

Databases & ORMs: PostgreSQL, MongoDB, MySQL, TypeORM, Mongoose, Prisma, Sequelize

Auth & Security: JWT, RBAC, OAuth, Session-based Auth

Infrastructure & DevOps: Docker, CI/CD, AWS, Redis, Swagger/Postman

Languages & Frontend: TypeScript, JavaScript, React, Next.js, TailwindCSS, Zustand, Context API, React Query

Tools & Practices: Git, GitHub, Jest, Atomic Design, i18n, Linear

Languages

English, Persian (native)
