

Kian Janloo

+989113593282 | kianjanloo10@gmail.com | Sari, Mazandaran

Summary

Experienced in building scalable web applications with React, Next.js, and Node.js/TypeScript. Skilled in REST & GraphQL API design, database modeling (PostgreSQL, MongoDB), and cloud deployment. Passionate about accessible, high-performance UIs, improving developer experience, and delivering products that balance great UX with robust engineering.

Experience

Hexorix | Tehran

Backend Developer | 01/2026 - 05/2026

- Built scalable TypeScript backend services using Express.js and NestJS with modular, clean architecture.
- Optimized PostgreSQL/MongoDB performance and consistency using TypeORM and Mongoose.
- Developed secure REST/GraphQL APIs featuring JWT/RBAC auth, data validation, and Redis caching/rate limiting.
- Maintained smoother CI/CD by integrating Jest, Swagger, and Docker

Sahar SMS | Tehran

Full Stack Developer | 09/2025 - 12/2025

- Built secure REST APIs with Node.js/TypeScript using JWT, RBAC, middleware, and rate limiting, and optimized PostgreSQL schemas with TypeORM (relations, indexes, migrations).
- Improved backend performance with Redis caching, session storage, and background job queues.
- Developed fast, SEO-friendly Next.js/React applications with SSR, SSG, ISR, dynamic imports, and code-splitting.
- Delivered responsive, accessible UIs from Figma and created reusable component libraries documented in Storybook.

Apanco | Sari, Mazandaran

Front End Developer | 01/2024 - 06/2025

- Converted UX/UI wireframes into production-ready React, TypeScript, and Next.js applications, reducing post-launch issues and optimizing performance.
- Developed and integrated scalable RESTful APIs with Express.js and TypeScript, implementing secure authentication with JWT and NextAuth.js.
- Applied Git workflows and CI/CD pipelines to maintain clean code and streamline releases, collaborating with backend engineers to optimize API contracts and data flow.
- Optimized React and Next.js apps through dynamic imports, image optimization, lazy loading, and monitored performance with Chrome DevTools and Lighthouse for better UX and SEO.

Sepehr Academy | Sari, Mazandaran

Front End Developer | 03/2022 - 12/2023

- Collaborated in a 3-member Agile team to build scalable, responsive React applications with modular, reusable components, improving development efficiency.
- Delivered pixel-perfect, accessible UIs using HTML, CSS, Flexbox/Grid, and modern JavaScript, translating Figma wireframes into production-ready React/TypeScript interfaces.
- Built and maintained a scalable admin dashboard with React, Context API, and Material UI, integrating RESTful APIs using React Query, Axios, and Postman for reliable data synchronization.
- Optimized UI performance using React Hooks, memoization, and lazy loading while collaborating across teams to align UX with business goals.

Skills

HTML, CSS, JavaScript, TypeScript, Node.js, React, Next.js, Express.js, Nest.js, SQL, PostgreSQL, MongoDB, Sequelize, TypeORM, Mongoose, Prisma, MySQL, TailwindCSS, Zustand, Atomic Design, Docker, CI/CD, AWS, Swagger/Postman, Context API, React Query, Axios, i18n, Linear, JWT, Session-based Auth, OAuth, Git, Github
