SUMMARY

Full Stack Developer experienced across the entire stack: React/Next.js/TypeScript on the frontend and Node.js (Express.js, NestJS) with PostgreSQL/MongoDB on the backend. Builds secure, well-tested REST/GraphQL APIs and pairs them with fast, accessible, SEO-friendly UIs. Comfortable owning a feature end-to-end - from schema design and API contracts through component implementation, performance tuning, and CI/CD.

EXPERIENCE

Hexorix | UK - Backend Developer

01/2026 - 05/2026

United Kingdom (Remote)

- Built scalable TypeScript backend services using Express.js and NestJS with modular, clean architecture, cutting feature delivery time by 20%.
- Enhanced PostgreSQL/MongoDB performance and data consistency using TypeORM and Mongoose, reducing average query latency by 30%.
- Developed secure REST/GraphQL APIs featuring JWT/RBAC authentication, validation, and Redis caching/rate limiting, supporting 50+ concurrent endpoints.
- Streamlined the CI/CD pipeline by integrating Jest (80%+ test coverage on core modules), Swagger, and Docker.

Sahar SMS - Full Stack Developer

09/2025 - 12/2025

Tehran, Iran

- Built secure REST APIs with Node.js/TypeScript using JWT, RBAC, middleware, and rate limiting for a platform serving thousands of daily SMS transactions, and streamlined PostgreSQL schemas with TypeORM (relations, indexes, migrations), reducing slow-query incidents by 25%.
- Improved backend performance with Redis caching, session storage, and background job queues, cutting average response time by 35%.
- Developed fast, SEO-friendly Next.js/React applications with SSR, SSG, ISR, dynamic imports, and code-splitting, improving page load times by 25%.
- Delivered responsive, accessible UIs from Figma and created reusable component libraries documented in Storybook, cutting design-to-dev handoff time by 20%.

Apanco - Front End Developer

01/2024 - 06/2025

Sari, Mazandaran, Iran

- Converted UX/UI wireframes into production-ready React, TypeScript, and Next.js applications, reducing post-launch issues by 15%.
- Developed and integrated scalable RESTful APIs with Express.js and TypeScript, implementing secure authentication with JWT and NextAuth.js, supporting 10+ client-facing features.
- Applied Git workflows and CI/CD pipelines, collaborating with backend engineers to improve API contracts and data flow, cutting release cycle time by 15%.
- Enhanced React and Next.js app performance through dynamic imports, image optimization, and lazy loading, improving Lighthouse scores by 20%.

Sepehr Academy - Front End Developer

03/2022 - 12/2023

Sari, Mazandaran, Iran

- Collaborated in a 3-member Agile team to build scalable, responsive React applications with modular, reusable components, cutting duplicate code by 25%.
- Built and maintained a scalable admin dashboard with React, Context API, and Material UI, integrating RESTful APIs via React Query, Axios, and Postman, supporting 500+ daily active users.
- Delivered pixel-perfect, accessible UIs using HTML, CSS, Flexbox/Grid, and modern JavaScript, achieving 100% WCAG AA compliance across core pages.
